DENR Order.

Other Relevant Information

We advise that late afternoon of February 13, 2017, Marcventures Mining and Development Corporation ("MMDC"), a wholly-owned subsidiary of Marcventures Holdings, Inc. ("MHI"), received an Order dated February 8, 2017 from the Secretary of Environment and Natural Resources cancelling MMDC's Mineral Production Sharing Agreement No. 016-93-X (SMR). The Order stated that "the mining operation of MMDC in the MPSA contract area has impaired the functions of the watershed and that the company has not complied with the penalty of planting three million seedlings"; and that MMDC had violated certain laws and regulations being implemented by the Department of Environment and Natural Resources ("DENR"). The dispositive portion of the DENR Order dated February 8, 2017 is quoted below:

"NOW, WHEREFORE, the foregoing premises considered, Mineral Production Sharing Agreement No. 016-93-X (SMR) is hereby cancelled subject to compliance with the provisions of Republic Act No. 7942 on the final mine rehabilitation of disturbed areas and other applicable laws and rules and regulations."

MHI and MMDC strongly object to the findings of the DENR and shall file the necessary legal action to prevent implementation of the said Order. We are optimistic that the Order will be reversed and set aside considering MMDC's basis, among others, MMDC's prior legal right to conduct operations in a declared watershed as recognized under Proclamation No. 1747 given that MMDC's MPSA was approved in 1993 prior to the issuance of the said Proclamation in 2009 and the fact that MMDC was prevented from implementing the planting of three million seedlings due to previous inaction of the DENR to the program submitted by MMDC in February 2015 which was resolved by Secretary Lopez only in January 11, 2017. We stress that MMDC is environmentally compliant.

Until this matter is given due course and resolved based on the merits, MMDC expects to continue operation and conduct business as usual.

Very truly yours,
